

Sol-Luce Energy Project Community Liaison Committee

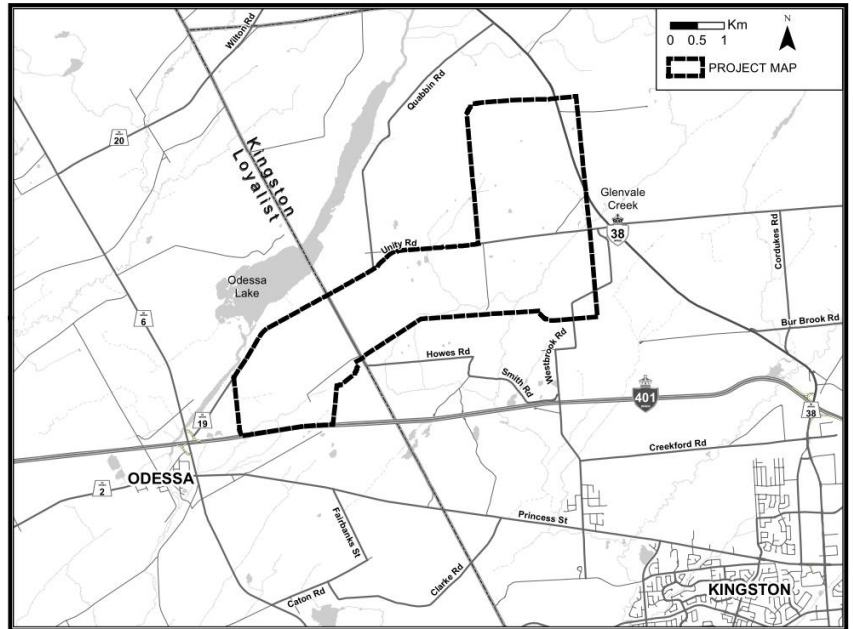

About the Project

The Sol-Luce Kingston Solar PV Energy Project (Sol-Luce Energy Project) is a 100-megawatt solar photovoltaic power development located in the City of Kingston and Loyalist Township. The project is being developed by Kingston Solar GP on behalf of Kingston Solar LP (Kingston Solar), which obtained approval from the Ministry of the Environment (MOE) to build a Class 3 Solar facility in April, 2014.

Community Involvement

Good planning includes the involvement of the community as a key partner. Kingston Solar is establishing a Community Liaison Committee (CLC) to discuss the important aspects of construction, installation, use, operation, maintenance and retirement of the Sol-Luce Energy Project. This committee is a requirement of

Kingston Solar's Renewable Energy Approval (REA) and will serve as a forum for the community to share ideas, express concerns and to receive ongoing updates about the Sol-Luce Energy Project. An independent, third-party facilitator from AECOM has been retained to facilitate the Sol-Luce Energy Project Community Liaison Committee meetings.

To learn more about the Sol-Luce Energy Project and/or to download an application form please visit:
www.samsungrenewableenergy.ca/kingston

To join the committee or for more information, please contact Mark van der Woerd of AECOM by July 9th, 2014 so that he can speak with you about your interest and confirm next steps.

Mark van der Woerd (Facilitator)

How to Get Involved

The committee for the Sol-Luce Energy Project is expected to consist of up to 14 people with membership drawn from a cross-section of the community in order to provide a broad and balanced perspective. Individuals from the following groups are intended to represent this Committee:

- Local Landowners;
- Residents within 1 km of the Project;
- Representatives from Aboriginal communities;
- Members of the agriculture community;
- Business / industry representatives;
- Local social and environment organizations; and,
- Representatives from local government agencies.

Each committee meeting will be open to the public so that the community can participate by observing. Requests for delegations at meetings can be requested prior to each meeting by contacting the committee facilitator.

The Sol-Luce Energy Project CLC is expected to meet at least four times over a two year period. The first CLC meeting is expected to be held mid-August, 2014. The CLC meetings will be held at a time and location that is convenient to most members. Committee members will be encouraged to share any information the results of all CLC discussions with other interested members of the community.
