NOTICE OF REA AMENDMENT

NOTICE OF APPLICATION FOR REA AMENDMENT

For the Grand Renewable Solar Park Project

Project Name: GRAND RENEWABLE SOLAR (GRS)

Project Location: County of Haldimand, Ontario

Dated at: The County of Haldimand this 8th day of October, 2014

**GRAND
RENEWABLE
SOLAR LP**

Grand Renewable Solar LP is planning to engage in a renewable energy project for which a Renewable Energy Approval (REA) was issued by the Ministry of Environment and Climate Change (MOECC) on June 15, 2012 and an amended approval issued on September 27, 2013. The Project, called the Grand Renewable Solar Park (GRS) Project is located in the County of Haldimand bounded by Mount Olivet Road to the west, Meadows Road to the north, Sutor Road to the east, and Haldimand Road 20 to the south for most of the site, with a small portion extending south of Haldimand Road 20. The Project will consist of solar modules, inverters, step up transformers, electrical collector lines, a transformer substation, transmission line access roads and construction staging areas.

Application for Minor Amendment:

Grand Renewable Solar LP is seeking a technical change amendment to the REA issued for the Grand Renewable Solar Park Project (REA # 9560-8UJXJS). This amendment is for minor design changes (as described below) that have been required by the Independent Electricity System Operator (IESO). The changes specifically include the addition of two (2) 10 MVAR DSTATCOM units, addition of a Line Reactor, inclusion of manufacturer-specified transformer noise data and minor changes to the site layout.

These changes are described in the Modifications Document for this project. The Modifications Document is titled *Grand Renewable Solar Park Project Final Design Amendment Report II*, and it describes in detail the technical changes proposed. The report concludes that the amendments represent improvements to the project design in terms of its interaction with the electricity grid, and benefit both neighbouring residents and the environment. This report is available for viewing online at: <http://www.samsungrenewableenergy.ca/haldimand>.

Ongoing Communication:

Grand Renewable Solar LP is committed to maintaining communication with local stakeholders and community members. In addition to the groups mentioned above, Haldimand County staff and elected council, regulatory agencies, local residents and Aboriginal communities will be notified of Project activities through newspaper advertisements, mailings to the above-mentioned parties and notices posted on the Project's website, www.samsungrenewableenergy.ca/haldimand.

Grand Renewable Solar LP has developed a communication protocol that includes procedures for responding to and addressing comments and complaints. The protocol also requires that Grand Renewable Solar LP notify the MOECC should a complaint occur. Grand Renewable Solar LP is pleased to continue strengthening our relationship and dialogue with the Haldimand County community.
